L'ensemble typographique *Environnements* est le résultat d'une résidence menée par les collectifs COYOTE et Velvetyne à La Générale. Durant trois jours, ils ont expérimenté des concepts, des formes-pensées, afin de réaliser une grammaire environnementale, un ensemble de signes visuels à employer pour raconter autrement les bouleversements écologiques actuels. La collaboration s'inscrit dans le cadre *de la racine ∞ au transplant* un projet mené par COYOTE sur l'invitation de la Biennale Contour 9 à Maline en Belgique.
